

learningCpp/StandardLibrary
/SL_Basics.cpp

```
graph TD; A[learningCpp/StandardLibrary /SL_Basics.cpp] --> B[iostream]; A --> C[array]; A --> D[vector]; A --> E[string];
```

The diagram illustrates the relationship between a C++ source file and the standard library headers it includes. At the top, a gray rectangular box contains the text "learningCpp/StandardLibrary /SL_Basics.cpp". Four blue arrows originate from the bottom edge of this box and point downwards to four separate white rectangular boxes arranged horizontally. These boxes are labeled "iostream", "array", "vector", and "string" from left to right, representing the standard library headers included by the source file.
